DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Group I, the species of Figures 1A-1B

Group II, the species of Figures 2A-2C.

Group III, the species of Figure 3.

Group IV, the species of Figures 4.

Group V, the species of Figures 5A-5B.

Group VI, the species of Figure 6.

Group VII, the species of Figure 7.

Group VIII, the species of Figure 8.

Group IX, the species of Figures 9-12.

Group X, the species of Figures 13A-13B

Group XI, the species of Figure 14.

Group XII, the species of Figures 15A-15B.

Group XIII, the species of Figure 16.

Group XIV, the species of Figures 17 and 18.

Group XV, the species of Figure 19.

Group XVI, the species of Figures 20-22.

Group XVII, the species of Figures 23A-23B.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for

prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
